CORNERSTONE EVENT

THE PURPLE PARADE

The Purple Parade, Singapore's largest movement advocating for inclusion and celebrating the abilities of individuals with special needs, stands as TPPL's signature event. This ground-up collaborative initiative, supported by volunteer groups, various community organizations, and corporate entities, forms an organising committee of over 30 representatives and is facilitated by The Purple Parade Limited and Central Singapore Community Development Council (CDC).

Throughout its evolution, The Purple Parade has provided platforms for inclusive displays through its 5C segments: Campaign, Carnival, Concert, Contingent, and Conversations. These segments foster an inclusive celebration of abilities, uniting partners in support of inclusion.

The Purple Parade 2023, held on November 4th, aimed to enhance public awareness. Open to all who champion the cause, participants were invited to parade, volunteer, showcase their abilities, or simply attend in solidarity. A record-breaking 13,000 participants, with Deputy Prime Minister Lawrence Wong as the guest-of-honour, joined The Purple Parade, marking the largest turnout in its history.

CONCERT

THE PURPLE PARADE

We organised the Concert segment of The Purple Parade, featuring a diverse lineup of 41 performances by persons of all abilities. These performances are not only a celebration of the remarkable talents and abilities within the disability community but also serve as a platform for our valued partners to showcase their support and collaboration. This segment highlights our commitment to fostering a society where everyone, regardless of ability, can participate fully and contribute meaningfully.

CARNIVAL

THE PURPLE PARADE

We curated a special marketplace that featured a diverse array of high-quality products created by talented members of the disability community. This initiative was a highlight of our Carnival event, offering attendees a unique opportunity to support and appreciate the craftsmanship and creativity of our partners.

The marketplace consisting of 44 booth partners included:

EAT booths

These featured a delightful assortment of food and beverage offerings, prepared and served with care by individuals with disabilities, showcasing their culinary skills and entrepreneurial spirit.

SHOP booths

Attendees browsed through a variety of merchandise, crafts, and products meticulously crafted by members of the disability community. Each item not only represented artistic expression but also served as a testament to the participants' dedication and talents.

PLAY booths

These interactive spaces provided engaging activities and games, fostering a vibrant atmosphere of inclusivity and joy. Participants and visitors alike enjoyed connecting through shared experiences and entertainment.

CARNIVAL

THE PURPLE PARADE

We are pleased to showcase some of the vibrant activities by our partners that took place at our marketplace, featuring engaging 'EAT,' 'SHOP,' and 'PLAY' booths. The Purple Parade merchandise also made its appearance, with exclusive on-site items.

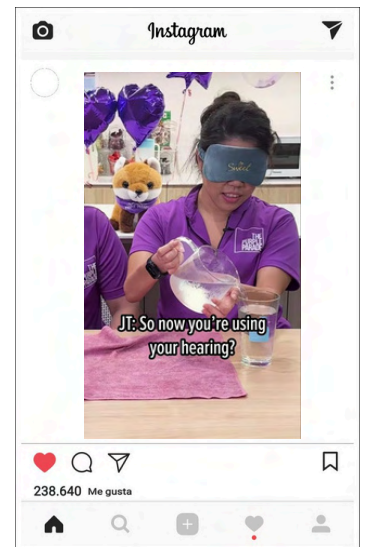

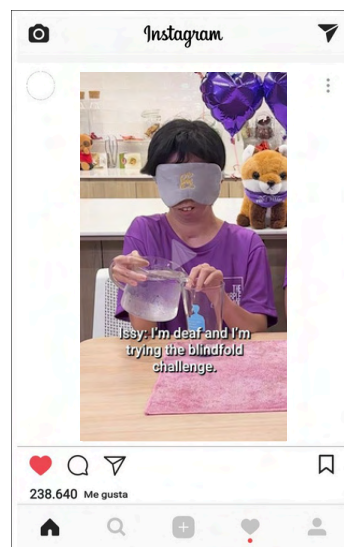

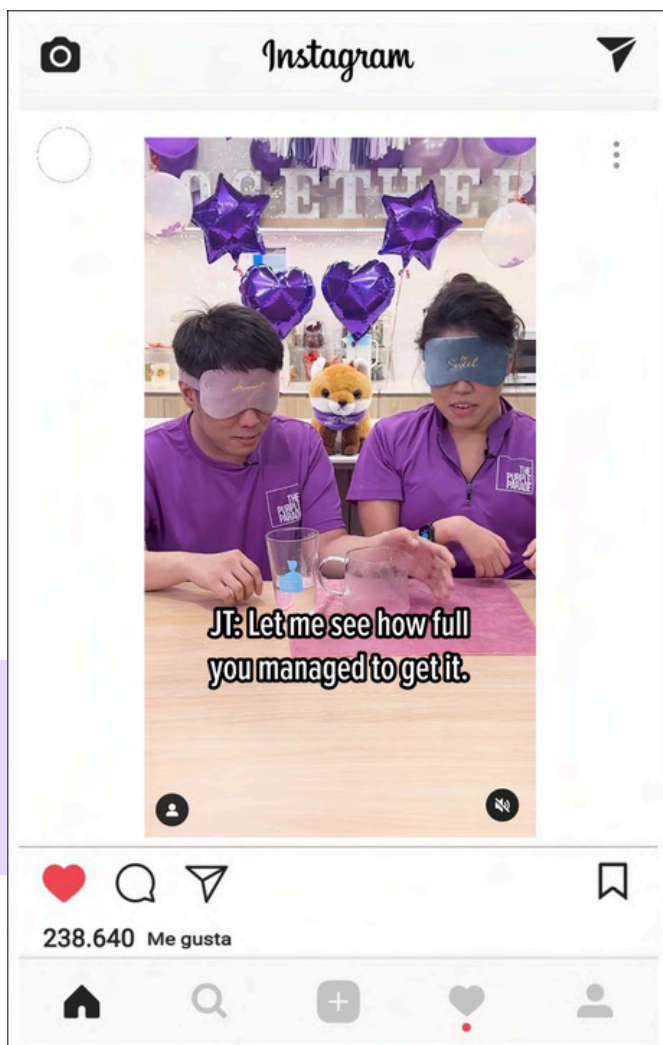

CAMPAIGN

THE PURPLE PARADE

The Campaign serves as a robust initiative to amplify awareness for The Purple Parade Movement through a blend of online and offline engagements. Typically spanning a month leading up to the Parade's culminating celebration in November, it harnesses both digital platforms and community activities.

For the first time, persons with disabilities took the lead in conceptualising a online campaign. Mr Josh Tseng, a member of our Organising Committee, wrote, filmed, and edited the 'Blindfold Challenge,' guiding fellow persons with disabilities such as Ms Isabelle Lim and Ms Yip Pin Xiu through the process. The Blindfold Challenge was posed to the public to try on their own. This initiative demonstrates our dedication to providing a platform for persons with disabilities like Josh to showcase their skills and talents, advocating for greater community inclusion.

The Blindfold Challenge

Josh is a creative individual who has a following of 14,500 on TikTok. His content is on disability awareness and has video views of over 300,000!

CAMPAIGN ACTIVATION

THE PURPLE PARADE

For offline engagement, central to our efforts are interactive "pop-up" spaces strategically located across the island. These spaces are dedicated to educating the public about The Purple Parade Movement and promoting support for inclusion. They serve as platforms where self-starters host their own activations, creatively conveying messages of inclusivity. Last year, these grounds-up initiatives attracted enthusiastic participation, with 3000 individuals actively involved, showcasing robust community engagement and dedication to our cause.

Campaign Activations

These self-starters get creative with their ideas, from dressing up their booths with balloon pillars to setting up photo booths with props and even crafting balloon models, all to attract public interest in the movement.

CONTINGENT

THE PURPLE PARADE

We proudly highlight the impactful participation of over 200 organisations and more than 8,000 marchers from the People, Public, and Private sectors, alongside members of the public, who joined in a unified display of solidarity for inclusion through a monumental street parade march-past. Their enthusiastic involvement underscored a shared commitment to fostering an inclusive society where diversity is celebrated and barriers are dismantled. Contingent not only showcased our collective dedication but also amplified awareness and advocacy for the rights and contributions of individuals with disabilities. It was a powerful demonstration of our community support and collaboration.

VOLUNTEERS OF THE PURPLE PARADE

We are delighted to highlight the invaluable contribution of over 1300 volunteers who made our event possible. Their dedication was pivotal as they served as motivators for the contingent, managed crowd control, assisted other charities with their booths, and handled numerous logistical aspects of the event. This year marked our largest volunteer pool ever, underscoring the community's growing support for our mission of inclusion.

To ensure our volunteers were equipped to interact sensitively and effectively, they participated in a disability awareness training conducted by Mr. Winston Wong, a member of our organising committee who is hard of hearing. This training not only enhanced their understanding but also fostered an inclusive environment where everyone could contribute meaningfully to the success of our initiatives. We extend our heartfelt gratitude to each volunteer whose commitment and enthusiasm continue to drive positive change in our community.

FACES OF THE PURPLE PARADE

Having persons with disabilities serve as ambassadors, or 'Faces', for The Purple Parade holds significance in fostering genuine representation and advocacy. Their presence not only exemplifies the core values of inclusivity and diversity but also provides authentic voices that resonate with the community they represent.

By showcasing persons with disabilities as ambassadors, we amplify their stories, strengths, and achievements, inspiring others to embrace inclusiveness and break down barriers. These ambassadors serve as living examples of resilience, determination, and capability, challenging stereotypes and promoting a more inclusive society where every individual is recognised for their unique abilities.

Their involvement not only enriches our initiatives with diverse perspectives but also empowers persons with disabilities to take pride in their contributions and be catalysts for positive change in Singapore's social fabric.

HUMAN LIBRARY CONVERSATIONS

'Conversations' on persons with disabilities is TPPL's year-long programme aimed at sparking meaningful dialogue and raising awareness about disability issues. Through the sharing of stories and social content, we strive to elevate perceptions of persons with disabilities within our community and beyond. By highlighting human interest narratives and personal journeys, we aim to foster empathy, understanding, and appreciation for the diverse abilities and contributions of individuals with disabilities.

This year, we re-strategised our digital plans and focused more on our Facebook and Instagram platforms. We curated a total of 10 human-interest stories and 1 short video, which collectively reached 112,711 people and received 16,262 engagements. This resulted in an impressive engagement rate of 14.42%, significantly surpassing the industry standard of 1-3%.

SURVEYING THE PUBLIC

THE PURPLE PARADE SURVEY

Our survey also measures attitudes towards persons with disabilities, assessing the level of social acceptance and willingness to interact with individuals with disabilities. The survey presents various scenarios to gauge respondents' comfort levels with different degrees of social proximity to persons with disabilities. This data is essential in identifying persistent areas of stigma and informs strategic initiatives aimed at promoting inclusion and dismantling barriers within Singaporean society. The accompanying graph below depicts these scenarios and public responses, providing a visual representation of societal attitudes and informing our ongoing efforts to foster a more inclusive community for all.

SMRT SUPPORTS THE PURPLE PARADE

In collaboration with SMRT, we launched "The Purple Parade Train" on 14 March 2024, to promote awareness of persons with disabilities through public transport. The initiative was honoured by the presence of Minister Chee Hong Tat and attended by 50 guests, including persons with disabilities and their caregivers.

For six weeks, from March 14 to April 21, 2024, commuters were greeted by the inspiring "21 Faces of The Purple Parade" on train in the circle line and platform decals at Bras Basah MRT station. Following this, the 21 Faces will also be showcased on two buses along SMRT's Route 960 from April 25 to June 6, 2024, further spreading the message of inclusion and celebrating diversity.

Future Plans

NEW INITIATIVE RE-GRANTING

In the coming year, in partnership with Temasek Foundation, TPPL will pilot the concept of regranting as a philanthropic strategy.

Beginning in July 2024 and spanning a three-year period until June 2027, with a total grant amount of \$3.6 million, we will pilot this approach within the disability sector. As part of this initiative, TPPL has established the Regranting Unit to administer funding support for programs that cater to the evolving needs of the disability community. This initiative aims to foster innovation and sustainable solutions that positively impact the lives of individuals with disabilities across Singapore.

THE GRANT FOCUSES ON 3 STRATEGIC AREAS

01 Enable Independent Living

Initiatives to strengthen capability of PwDs to live as independently as possible in the community.

02 Enable Healthier Living

Initiatives that will enhance healthier lifestyle choices and habits of PwDs so that they live fruitful and healthier lives.

03 Enable Lifelong Learning

Initiatives that promote learning of PwDs so that their quality of life at work, home and community is maximised.

Future Plans

NEW INITIATIVE

THE PURPLE PARADE LEADERSHIP DEVELOPMENT PROGRAMME (LDP)

Launching in August 2024, our new initiative is a meticulously curated series of top-tier workshops and activities designed to enhance personal mastery, foster effective teamwork, and cultivate robust organisational leadership skills.

At TPPL, we firmly believe in empowering individuals with disabilities to thrive as leaders across various industries, both within and beyond the disability community. Tailored to meet the specific learning needs of persons with disabilities, participants will engage in monthly 1 or 2-day sessions spanning nine months, complemented by invaluable mentoring relationships. The programme encompasses a rich array of components including workshops, profiling tools, practicums, organisational visits, and personalised mentoring, aimed at nurturing the next generation of disability-inclusive leaders poised to make a lasting impact in their respective fields.

WHY DO WE NEED A LDP FOR PWDS?

01 Provide Growth Opportunities

A leadership track tailored to their learning needs provides growth opportunities that parallel those of their non-disabled peers.

02 Build Confidence and Skills

Adults with disabilities may face unique challenges in developing their leadership abilities. The programme provides targeted support to help them build confidence, develop essential leadership skills, and overcome barriers to advancement.

03 Foster Peer Support Networks

The programme fosters a supportive peer network, and helps participants navigate challenges and celebrate successes together.
